

Environmental Compatibility Finance Schemes

1. Environmental Compliance Agreement

- **Purpose:** co-finance the purchase of the machinery & equipment, construction & installation works and the necessary designs in addition to any other purposes related to the industry's environmental compliance (excluding taxes, customs and other sovereign expenses).
- **Eligible enterprises:** Egyptian private-sector SMEs (engineering, mining, textile and food industries), provided that the enterprise's environmental objective is clearly defined.

2. Industrial Pollution Abatement

- **Purpose:** co-finance the investment costs of existing public and private sector industrial enterprises (minimum 5 years), assist industrial enterprises causing air and water pollution to comply with the environmental laws and finance their relevant waste management.
- **Eligible enterprises:** industrial enterprises

3. The Chillers Replacement Finance (central air conditioning)

- **Purpose:** finance the replacement of CFC chillers with alternatives more innocuous to the environment.
- **Finance structure:**
 - Bank loan : 50 %
 - Grant: 22% - 35%
 - Self-finance : remaining part
- **Repayment period:** up to 24 months including 3-month grace period.
